SOCIOECONOMIC CHARACTERIZATION QUESTIONNAIRE - TOURISM

Natura 2000 is a European ecological network of conservation of biodiversity areas, being considered as the main instrument for the conservation of nature in the European Union. The purpose of this network is to ensure the long-term survival of the most threatened species and habitats in Europe, helping to halt biodiversity loss caused by the adverse impact of human activities.

We kindly invite you to answer the following questionnaire, which will serve to establish conservation measures of the Natura 2000 ES5222007 Alguers de Borriana-Nules-Moncofa (see map attached). Once completed please return it where it is delivered or send to the address above. Thank you for your valuable contribution.

Information point where the questionnaire is deposited	<input type="text"/>
Town	<input type="text"/>
Region	<input type="text"/>
Could you provide us your name, phone number and / or address?	<input type="text"/>

1. Please, mark the beaches visited during your journey (in case you are a tourist), or those which you visit regularly (in case you are resident). See map attached.

2. What do you think about the cleaning of this coastal zone?

Excellent Good Not so great Bad

In negative case, why?

3. What do you think about water quality in the areas you marked on the map?

Good Solid waste (plastic, garbage, etc.) Murky water, foams Waste oil

4. Have you ever practiced any of these water sports in those places marked on the map?

Kitesurf Windsurf Diving Shipping Other

In case of diving, do you know that feeding is a practice that could be harmful for marine species natural behaviour?

Yes No DK/NA

5. Do you know Natura 2000 Network? Yes No DK/NA

6. Do you know that the surface indicated on this map defines an area protected by Natura 2000 Network?

Yes No DK/NA

7. Do you know the normative related to whale watching?

Yes No DK/NA

8. Do you know that habitats such as seagrasses, reef or sea caves and species such as loggerhead turtle or cetaceans are protected by European regulation?

Yes No DK/NA

9. Do you know if there are any of these natural values in the area of this site?

Yes No DK/NA

If yes, please specify:

10. Would you like to learn more about natural values in this Natura 2000 site?

Yes No DK/NA

What kind of information?

11. Do you know that leaves of seagrasses help to keep beach profile and foreshore sediment dynamics?

Yes No DK/NA

12. Are you willing to participate in environmental awareness campaigns in the area? Yes No DK/NA

13. Do you know any interpretation centre in this area? Yes No DK/NA

In affirmative case, please write its name

14. Comments

Statistical confidentiality:

Data collection for statistical purposes will be protected from administrative uses (Art. 13.1 of the Law on the Public Statistical Function [Ley de la Función Estadística Pública - LFEP] of 9 May 1989). The public statistical services staff and statistical interviewers used for carrying out the statistical surveys, benefit during this whole period of fulfilling this activity by the protection of the law, being considered as executing a function involving the state authority exercise (Art.17.1 of LFEP).
